

Hello Neighbor!

April 21, 2022

On behalf of the rest of the St. Lorenzo Ruiz IPD Team, Clark Builders wanted to notify the neighbourhood that three of the mature, poplar trees on the south end of the lot will need to be removed to facilitate future construction of the school's parking lot.

It is with regret that we must remove three beautiful trees from this outdoor space, however, after exhausting all efforts to find an alternative solution, we found that the only feasible course of action to support the school's requirements was to have the trees removed and recycled.

We have worked closely with the City of Red Deer throughout this process to attain the proper support and approvals to do so. In collaboration with our project, the City will be choosing three locations throughout the Kentwood community for replacement trees after construction of the school is complete.

If you have any questions, please don't hesitate to reach out to either of the contacts listed below.

Sincerely,

Clark Builders and the St. Lorenzo Ruiz IPD Team,
